### Patch Cord Guide, CGPT

#### Advanced flexibility

In order to make cable routing and especially re-routing easier, Eldon is now offering a more flexible patch cord guide. The guide has an integrated radius and detachable tongue, which prevents the cables from bending. This will give the user the opportunity to access the guide without any interference, and makes it very easy to route cables over or around the guide.

**Description:** The patch cord guide is suitable for both Pigtails and Patch Cables. Equipped with a hinged and removable tongue for easy re-routing of the many cables.

**Material:** Polycarbonate UL94HB

**Colour:** RAL9001, light grey

**Weight:** ca. 20gr

**Delivery:** 1 body with mounted tongue and two screws M5x6

**Tongue**

70mm

**Part.nr.**

CGPT70
