

Dear all,

This communication is to inform that there is a scam running on the on-line media, from "recruiters" posing as Eldon International. *Craigslist* is one of the websites, where someone claiming to represent Eldon is looking for applicants for the Office Assistant position.

If immediately after submitting your application, you have received an e-mail, from **managementdesk@rocketmail.com**- what appears to be Eldon International, represented by the **HR Manager - Ms Cassandra Rogers, please do not take it into consideration, as it is a scam**. Although the e-mail will provide you Eldon's details - it is not a guarantee, as this information was taken without any rights from the official Eldon website, in order for the scammers to gain more credibility.

Our company, Eldon Group, can assure you that there is no such person under the name of Cassandra Rogers in our organization, and also that we are not recruiting any applicants for the Receptionist/Office Assistant position or open any plant in Dallas, US.

We kindly advise you to be very careful when asked for any sensitive information, such as bank accounts, or any other financial data.

Therefore, Eldon will take all legal steps in order to trace this scam and would highly appreciate any additional information from your side.

We apologize for any inconvenience this problem may have caused you, and thank you for your cooperation.

Eldon Group,

01/02/11
